

nav-bar

- [nav-bar](#)
 - `module.exports() => (HTML)`
 - `module.exports~useState : Array.<String, function()>`
 - [Code](#)

`module.exports() => (HTML)`

Displayable, navigation bar.

Kind: Exported function

module.exports~useState : `Array.<String, function()>`

Kind: inner typedef of `module.exports`

Code

```
/** @module nav-bar */
import "./style.css"

import {Link} from "react-router-dom"
import { useState } from "react"

import logo from "../../assets/logo.svg"

/**
 * Displayable, navigation bar.
 * @returns {HTML}
 */
export default function NavigationBar(){
  /**
   * @constant
   * @type {string}
   */
  const user = localStorage.getItem("id")

  /**
   * @constant
   * @typedef {Array.<String, Function>} useState
   */
  const [active, set_active] = useState("")

  /**
   * @constant
   * @type {Object}
```

```

* @property {Object} STYLES.active
* @property {string} STYLES.active.backgroundColor
*/
const STYLES = {
  "active" : {
    "backgroundColor": "#9EF3FF"
  }
}
